Books 1, 2, 3, 4, 5 and 6 of the Serena Wilcox Mysteries! Serena Wilcox is a quirky former private detective, a happily married wife, and a mother of three. While Serena is far removed from the political scene, President Ann Kinji is drowning in a divided nation riddled with conspiracies, power-hungry government and criminal politicians. President Kinji calls upon government outsider Serena Wilcox. Can Serena save the day with her unlikely crew of vigilantes and burned agents?

The Serena Wilcox Mysteries began with three novellas published from 1998-2000 that developed a cult following. The Serena stories evolved into a popular series of full length books beginning with book one, Angels Mark.

Angels Mark (Book 1): What if the United States knew of a nuclear threat and let it happen? First published in 2011, Angels Mark is eerily current. Conspiracy, greed and a lust for power are at the root of this plot-twisting thriller about corrupt American government; when the future of the nation depends on former private detective and mother-of-three Serena Wilcox and her unlikely crew.

Covert Coffee (Book 2): An asset to President Ann Kinji in the past, Serena is snatched in Germany and brought back to the United States for a covert mission run by former government agents. Realizing that her participation is not entirely voluntary, she is desperate to complete the mission so that she can be reunited with her family. As the case draws her ever closer to the conspiracy to kill the president, she reaches out to the criminally insane for help, sinking deeper and deeper into a rabbit hole where the bodies are piling up and nothing is as it seems.

Bluebird Flown (Book 3): Covert Coffee's dystopian, eerie, and intense vibe continues! Bluebird Flown goes even deeper into the madness of futuristic America; corrupt, heavy with conspiracies--chillingly close to tomorrow's headlines. As the United States continues to spiral out of control, can Serena stop all of the traitors before they kill the President? As the layers of betrayal are peeled, will anyone remain standing?

Project Scarecrow (book 4): Serena and her crew are hired by the Gödel Solution Institute (GSI), run by former President Ann Kinji. Time travel technology is classified as top secret Project Scarecrow, but Project Scarecrow is compromised. Governments from the present and the future clash to control the destiny of mankind. Can Serena uncover who is behind this power struggle before history is forever altered?

Ruby Red (book 5): To investigate the men of the future, Serena must journey into the past. The government entities of the future are beyond sinister and they will stop at nothing to gain power over time travel technology. They threaten GSI, Serena herself, and ultimately the future of the entire planet. Why are the men of the future obsessed with the horrors of the past? Can Serena uncover what they're doing before it's too late?

Future Beyond (book 6): Serena Wilcox investigates corrupt governments of the past, present and future with her heroic crew. Serena is attacked by an evil power that manipulates her memories and uses them against her. The future of the world depends on her ability to see the difference between the truth and deception. Is Serena strong enough to fight against the evil that lurks in the future beyond? And what if the monsters of the future are ourselves?
