Memories of Another Day

Harold Robbins

Memories of Another Day Harold Robbins

Harold Robbins, the world's most popular and captivating storyteller, has created what may well be the most significant book ever written about the rise of the labor unions. The 1979 novel, freshly re-released, is the saga of Daniel Boone "Big Dan" Huggins, who rises from poverty and the mines of West Virginia to become the most respected and feared labor organizer in the nation. Daniel's life and death are tied to the challenges and fortunes of American labor. Once he is gone, his youngest son Jonathan must take up the reins of his father's cause, returning to Daniel's roots to better understand the path that led him to his destiny. Robbins has a gift for combining popular fiction with the most pertinent subjects of the twentieth century, to create a snapshot of the time. Relevant, respectful, and very readable, *Memories of Another Day* proves once again why Harold Robbins' books have sold more copies than any other American writer in history.
