Farewell Apathy (Unveiling) (Volume 1) Jenn Hype

The world is a scary place, even when you know who you are, where you come from and most importantly, who your enemies are. So imagine how I felt when I woke up inside of Mayford Mental Institution, strapped to a bed in a dark, empty room with no recollection of how I got there. Try to picture having no family or friends to help you try to remember and adjust to a totally new life. If only my problems stopped there. If only I didn't have someone trying to torment me at every turn. If only my life didn't become more and more complicated the more I started to remember. It started out okay enough - my friend-turned-psychiatrist Mark found me a job and a place to live. My neighbor Keegan took me in under her wing and helped me adjust. Wyatt, a dark, brooding and dangerously sexy new tenant moved in a week after me, taking on the task of reminding me what blinding lust feels like. What goes up, must come down, and as soon as life starts to feel like something I can handle, the gravity of my messed up life yanks me right back down on my ass. Kind of crazy how quickly you can go from being completely apathetic about your unknown future, to fearing that your future might not even exist at all....
