In a book that is being heralded as "an investigative maserpiece" with "astounding archaeological and prophetic implications," TEMPLE: Amazing New Discoveries That Change Everything About the Location of Solomon's Temple, by Robert Cornuke, is sending shockwaves through the Jewish, Muslim, and Christian worlds. Can you imagine the upheaval in political and religious thinking if the Temple Mount in Jerusalem is not the site of Solomon's and Herod's temples? And what if the stones of the Wailing Wall are not what tradition says? In this highly-researched, exciting book, the author proposes from current archaeological excavations and Scriptural corroboration that the true temple location is not where tradition teaches. This is must reading for anyone who wants to fit together the pieces of biblical records, current geopolitics, and prophecy. Says the author, "Let the adventure begin as we now take the Bible in one hand and a shovel in the other and dig up some long-lost buried bones of biblical history. Along the way we will walk unknown passageways, known only to the prophets of old, as we search for the true location of the lost temples of Solomon and Herod. We will also lift a candle into the dim recesses of history and uncover secrets about the Ark of the Covenant and the gold Mercy Seat's prophetic obligation as it relates to the future Millennial temple."
