Marital Tensions (Psychology Revivals): Clinical Studies Towards a Psychological Theory of Interaction Henry V. Dicks

Originally published in 1967, this book gathers together the various aspects of Dr Dick's theoretical and clinical approach to marriage difficulties into a coherent system for the benefit of professional workers and students who were concerned with family and community psychiatry and case work at the time.

He preserves the essentials of the steps by which his concepts developed from one-person therapy into hypotheses for understanding interaction, with the couple as the unit of study.
