The Vaughan Chronicles: Burning Blossom (The Vaughan Chronicles Series Book 2) Grayer Vaughan
Burning Blossom is the second book in The Vaughan Chronicles series. It chronicles the second of seven lives of Magnolia Vaughan. We meet up with Magnolia again as she and Alexander Charles are locked into the darkness, forcing Alexander to become fully awoken and fully aware during this life as Bessie tries to break the bond between them. Bessie continues to become darker as her envy and wickedness begins to take hold of her, warming her blood within the deep purple fire causing her to change into her true Onca state as she continues to visit the lowest paralleled realm of purgatory, where Alexander sent her sister, Karent, when she tried to kill Magnolia in an earlier lifecycle.

As Magnolia continues to surface, Alexander will be forced to protect her against the madman feigning for her hypnotizing essence and star-shined blood and keep her alive long enough to live within the expected balance as she fights him the entire way at every turn. Magnolia will also be forced to come to grips with her destined path as she tries to let go of Justus as she saves his life, and the enticing secrets she has been keeping from a very suspicious Alexander as he tries to find out the truth about Stagger, which will make him become unhinged. Kerrigan, Magnolia's assistant will become her closest confidant as she begins to realize exactly who she is working for. As the Blossom try to protect the Queen, Alexander will begin to pressure her to commit further than she is willing to allow. Will the blossomed pair have what it takes to toe the line or will this madman's insanity succeed at finally getting even? Their future gets threatened as the force may just be too much for them to endure as the Blossom begins to beckon and burn brighter than anticipated.
