Don't run if you get caught unless you want claws in your spine and teeth in your neck and two hundred pounds of lust-crazed wolf on your back.

First contact between humans and the alien species they've nicknamed "wolves" couldn't have been more tranquil. The wolves shared their superior technology and knowledge in exchange for a new home, and thousands of wolves abandoned their aging spacefaring ships to settle in Earth's forested mountain regions.

But the wolves held some secrets too close and humanity has begun paying the price.

Once every three years, humans become sexual prey to a species that has no control over the urge to mate because of an unexpected and devastating attraction to human scent.

Heat season has arrived and a pack of wolves are bearing down on Ian.

His only choice, when he's rescued by an Alpha drawn in by his scent: Submit or die...

This story contains male/male sexual content. Romance for anyone who likes hot male/male loving with a strong dose of Alpha romance!
