Practical Design of Ships and Mobile Units (Developments in Marine Technology)

Practical Design of Ships and Mobile Units (Developments in Marine Technology)

These proceedings contain the papers presented at the 7th International Symposium on Practical Design of Ships and Mobile Units. The symposium was held at the Congress Centre in The Hague, The Netherlands on 20-25 September, 1998.

The overall aim of PRADS conferences is to advance the design of ships and mobile marine structures through the exchange of knowledge and the promotion of discussions on relevant topics in the fields of naval architecture and marine and offshore engineering. Greater international co-operation of this kind can help improve design and production methods and so increase the efficiency, economy and safety of ships and mobile units.

The main themes of this symposium are design synthesis, production, ship hydromechanics, ship structures and materials and offshore engineering.

Some topics which attracted many papers were design loads, design for ultimate strength, impact of safety and environment, grounding and collision, resistance and flow, seakeeping, fatigue considerations and propulsor and propulsion systems.

From reader reviews:

Sam Holmes:

Exactly why? Because this Practical Design of Ships and Mobile Units (Developments in Marine Technology) is an unordinary book that the inside of the e-book waiting for you to snap that but latter it will distress you with the secret this inside. Reading this book adjacent to it was fantastic author who all write the book in such wonderful way makes the content inside of easier to understand, entertaining technique but still convey the meaning thoroughly. So , it is good for you for not hesitating having this any longer or you going to regret it. This unique book will give you a lot of advantages than the other book get such as help improving your expertise and your critical thinking way. So , still want to postpone having that book? If I have been you I will go to the guide store hurriedly.

Johnnie McCormick:

Playing with family in a park, coming to see the water world or hanging out with good friends is thing that usually you will have done when you have spare time, then why you don't try matter that really opposite from that. One particular activity that make you not experience tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of information. Even you love Practical Design of Ships and Mobile Units (Developments in Marine Technology), it is possible to enjoy both. It is fine combination right, you still wish to miss it? What kind of hang-out type is it? Oh can occur its mind hangout fellas. What? Still don't have it, oh come on its known as reading friends.

Robert Shelby:

Reading a book for being new life style in this calendar year; every people loves to read a book. When you examine a book you can get a large amount of benefit. When you read books, you can improve your knowledge, mainly because book has a lot of information upon it. The information that you will get depend on what sorts of book that you have read. If you want to get information about your research, you can read education books, but if you want to entertain yourself look for a fiction books, these us novel, comics, and also soon. The Practical Design of Ships and Mobile Units (Developments in Marine Technology) will give you a new experience in reading through a book.

Sean Jones:

Reading a reserve make you to get more knowledge as a result. You can take knowledge and information from your book. Book is published or printed or created from each source that filled update of news. In this modern era like currently, many ways to get information are available for you actually. From media social just like newspaper, magazines, science guide, encyclopedia, reference book, fresh and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to open your book? Or just trying to find the Practical Design of Ships and Mobile Units (Developments in Marine Technology) when you necessary it?
