When Andy sneaks out of the house to meet a girl he'd been trying to secretly date, he's disappointed when she doesn't show up.

Instead, he wanders through the forest, stumbling upon a den of **alpha male wolves** that aren't happy to find the young human male in their midst. Before they let him go, though, the pack shows Andy that he doesn't need a woman to satisfy his carnal desires.

Andy's never thought of himself as gay before, but something about the **sexy, naked pack of half men** makes him willing to experiment, and it's a decision that may change his destiny!

After all, what's better than one hot and hunky man? **How about four of them at once?**
