**Modeling Methods for Environmental Engineers** Isam Mohammed Abdel-Magid Ahmed, Abdel Wahid Hag Mohammed, Donald R. Rowe

This is the first and only book to provide fundamental coverage of computer programs as they are used to evaluate and design environmental control systems. Computer programs are used at every level in every discipline of environmental science, and Modeling Methods for Environmental Engineers covers all of them. In addition, basic concepts related to environmental design and engineering are covered, expanding the usefulness of this book by providing introductory and fundamental materials required by those who wish to understand and employ the powerful computer programs available.

An excellent reference for practitioners and students alike, this unique book:
