This volume contains 6 fiction works by William Allen White, a renowned American newspaper editor, politician, author, and leader of the Progressive movement. Between 1896 and his death, White became the iconic spokesman for middle America. White sought to encourage a viable moral order that would provide the nation with a sense of community. He recognized the powerful forces of corruption but called for slow, remedial change having its origin in the middle class. In his novel *In the Heart of a Fool* (1918), White fully developed the idea that reform remained the soundest ally of property rights. It is included in this collection. He was also a founding editor of the Book of the Month Club along with longtime friend Dorothy Canfield. The books included are:

THE COURT OF BOYVILLE
