Sex While Intoxicated: Crime or Not? DR. Marshall Henry Smith

Very practical and common sense approach to understanding the different levels of alcohol intoxication, and when a person is unable to consent to sex after drinking. Well-intended people often find themselves victims of the devastating effects of alcohol, because they are not aware of how alcohol affects the brain. Learn how alcohol affects your brain and learn how to drink responsibly to avoid becoming intoxicated to the point where you are unable to prevent someone from taking advantage of you. Also gain an appreciation of when a person is too intoxicated to consent to sex and avoid being accused of having sex with someone who was too intoxicated to consent. Your life will never be the same if you are a victim of an alcohol-related sexual assault, and your life will never be the same if you get accused of having sex with someone who says they were too intoxicated to consent. You have worked hard for all of your accomplishments, don't lose everything after one night of irresponsible drinking.
