Photography for the Web

Paul Duncanson

Photography for the Web Paul Duncanson

A hands-on on guide to digital photography, with a practical focus on the Web. Readers will learn how to make the most of their digital camera, while learning the basics of composition, exposures, filters and more.

Step-by-step guides will walk readers through advance techniques like using long exposures, photographing items in motion, and the importance of the RAW data format.

"Photography for the Web" will also offer helpful advice on editing images (levels, colors, histograms), correcting for barrel distortions and vanishing points, removing blemishes, going black & white and stitching panoramas.

Finally, the book will discuss sharing images online, utilizing online communities like Flickr & Fotalia, competitions for amateur photographers and selling photos on stock image sites like iStockPhoto.

From reader reviews:

Deborah Anderson:

Book is to be different for each and every grade. Book for children until adult are different content. As we know that book is very important for us. The book Photography for the Web was making you to know about other knowledge and of course you can take more information. It is very advantages for you. The guide Photography for the Web is not only giving you considerably more new information but also being your friend when you experience bored. You can spend your own personal spend time to read your book. Try to make relationship using the book Photography for the Web. You never feel lose out for everything should you read some books.

Peter Burnett:

In this 21st centuries, people become competitive in every single way. By being competitive now, people have do something to make them survives, being in the middle of the crowded place and notice through surrounding. One thing that occasionally many people have underestimated the item for a while is reading. That's why, by reading a publication your ability to survive enhance then having chance to stay than other is high. For yourself who want to start reading any book, we give you this specific Photography for the Web book as nice and daily reading publication. Why, because this book is greater than just a book.

Alfonso Miller:

As people who live in the actual modest era should be revise about what going on or details even knowledge to make these people keep up with the era which is always change and progress. Some of you maybe will certainly update themselves by reading books. It is a good choice in your case but the problems coming to a person is you don't know what one you should start with. This Photography for the Web is our recommendation to make you keep up with the world. Why, because book serves what you want and want in this era.

Raymond McMillion:

As a pupil exactly feel bored in order to reading. If their teacher asked them to go to the library or even make summary for some e-book, they are complained. Just little students that has reading's heart and soul or real their hobby. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading seriously. Any students feel that looking at is not important, boring along with can't see colorful images on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this Photography for the Web can make you sense more interested to read.
